

## 21. Sector – Arankina Ada (km 1,247-1,244.8)

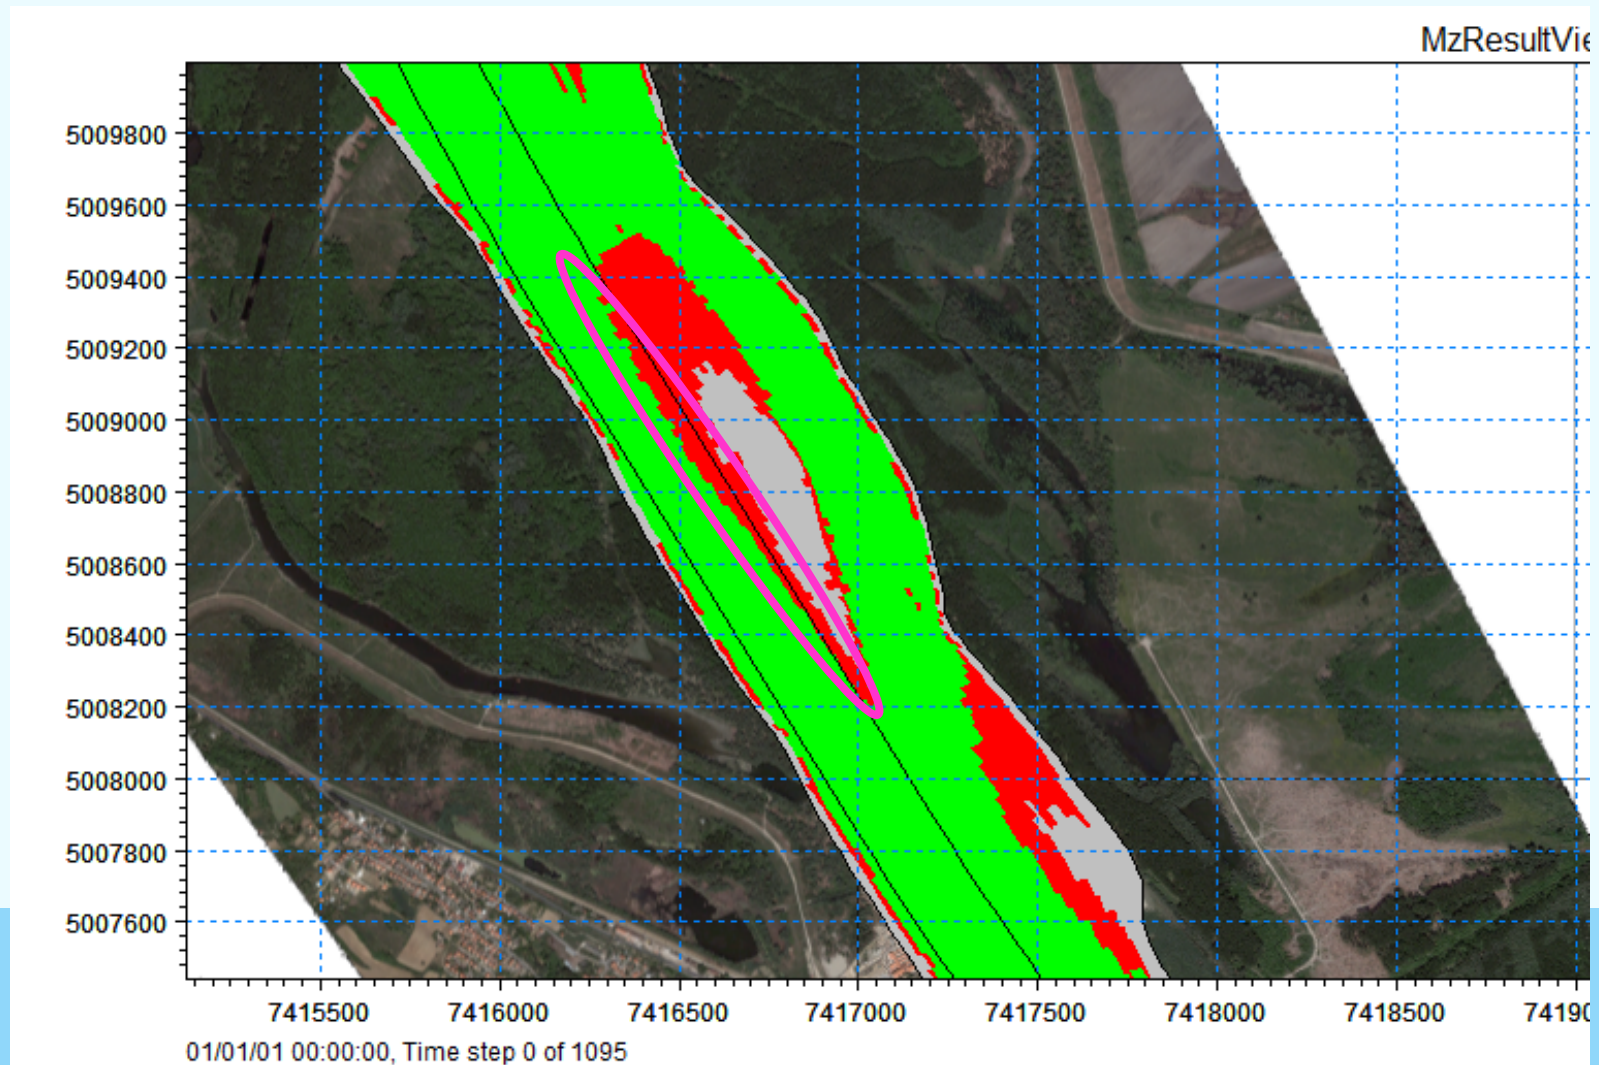

# 21. Arankina Ada – existing situation

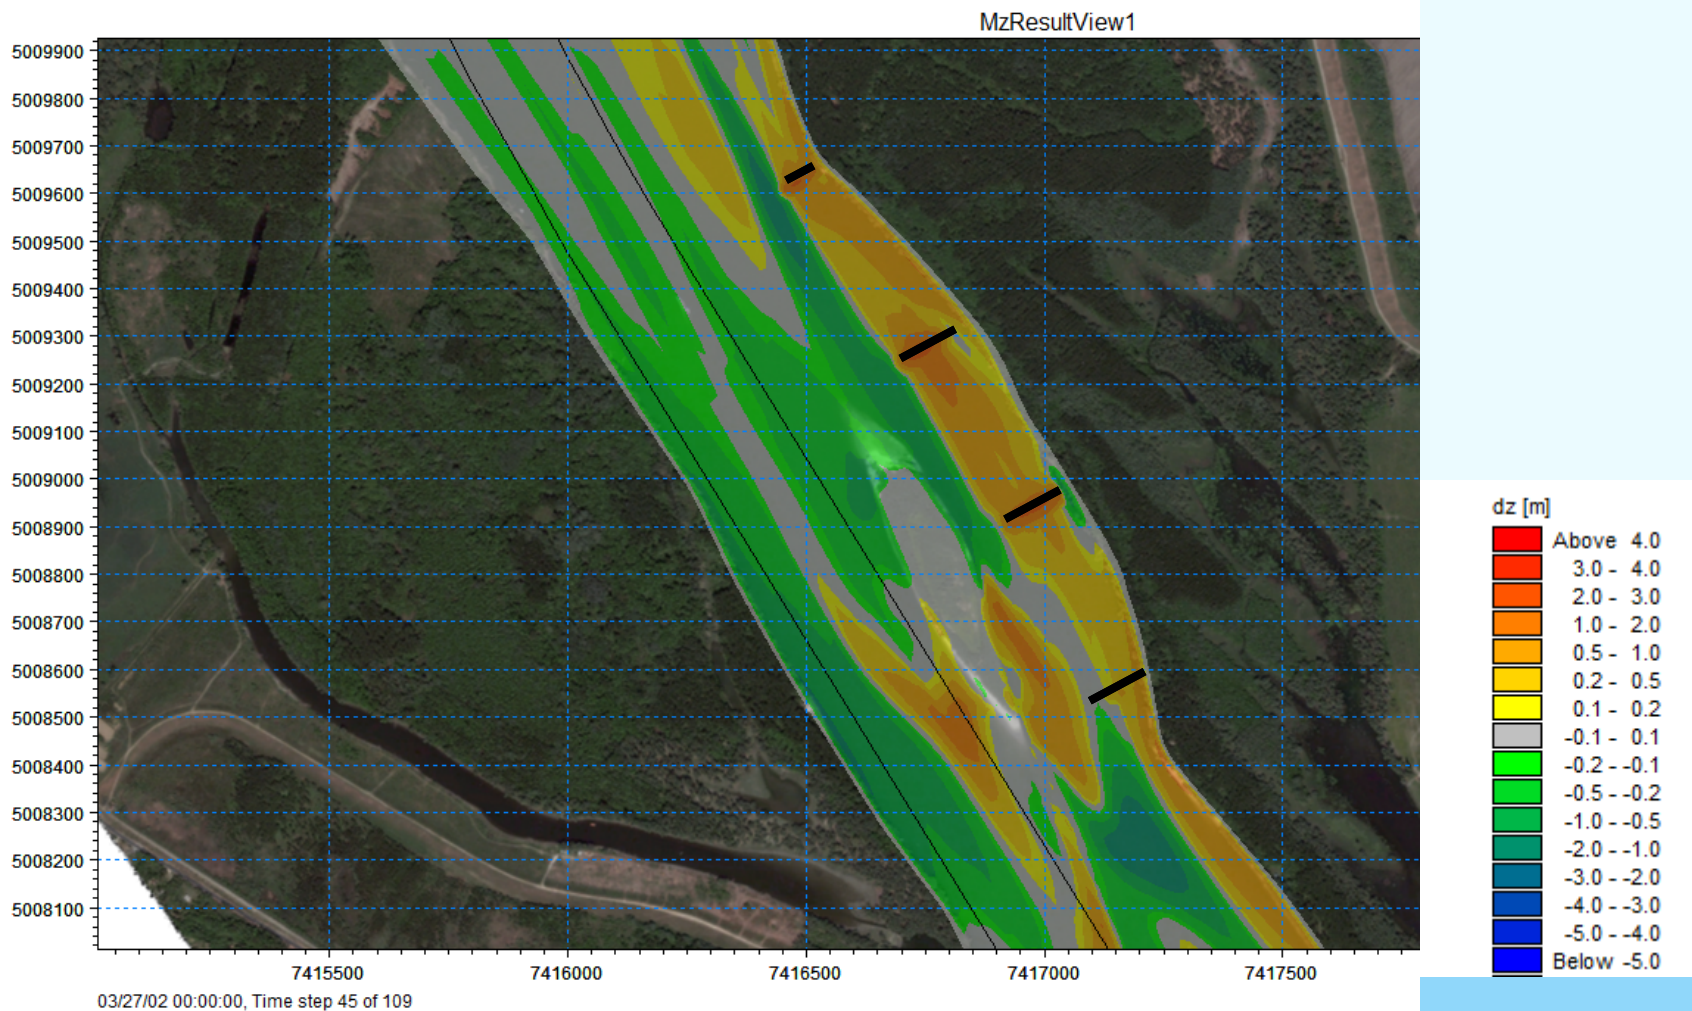

# 21. Arankina Ada – existing situation

Where is the depth less than 2.5 at DLNL (2012)?

# 21. Arankina Ada – simulation

Simulated bed level changes after 3 years (to be verified)

# 21. Arankina Ada – next steps

Optimisation of:

- Sills location and height,
- Mitigate adverse morphological effects (in other words make sure we don't get problems downstream)
